The regular quarterly meeting of the Region H Regional Homeland Security Oversight Committee was held on January 13, 2021, at the Region H Hazmat Building, 312 W. Colorado Ave., St. Joseph Mo., 64504 and via Zoom.

1. **Roll Call:** Chair Blair Shock called the meeting to order at 13:37. A verbal roll call was taken. Eleven (11) primaries/alternates from different disciplines attended in person or via Zoom. There was a quorum.
2. **Approve agenda:** RT Turner made the motion to approve the agenda as presented. Blake Rudel seconded the motion. The motion passed unanimously.
3. **Approve Meeting Minutes:**
  - **October 7, 2020** – Chair Blair Shock asked for a motion to approve the minutes. RT Turner made the motion to approve the minutes, seconded by Lee Sawyer. The motion passed unanimously.
4. **Reports:**
  - **OHS Update:** No updates
  - **Local/Regional Efforts & Initiatives:** No updates
  - **Chairperson’s Update:** Blair informed the board that Rhonda Wiley (Atchison County 911) asked if the RHSOC was funding radios again as radio projects weren’t considered for funding in some recent years. He reminded the committee that since radio projects have been funded in the last few grant processes and are being considered for funding, those interested should put in an application. Even if an entity’s application doesn’t get approved, balances sometimes remain from those funded projects which may be able to be applied to another requesting entity if they have an application on file.
5. **Regional Grant Updates:** Hayley Howard, Mo-Kan Regional Council, highlighted grant updates that were included in the committee packets:
  - **FY2019:** Hayley stated that all 2019 funds have been spent with the exception of the Work Plan/M & A and NTA Ambulance portable radio projects. Since remaining balances from other projects were transferred to NTA Ambulance’s portable radio project, after the last invoice of \$5,525.20 is paid, there will be a balance of \$2,493.01. Since that is not enough to purchase another radio, Hayley asked if NTA wanted to kick in the remainder to get an additional radio but declined. She went on to say that amount will probably have to be de-obligated since FY19 balances can’t be applied to FY20 projects and all other FY19 projects are complete.
  - **FY2020:** Hayley reported that procurement has not begun for FY2020 as the projects are not active on WebGrants yet.
6. **Committee Review / Vacancies / Updates:**

Committee vacancies were reviewed. Bill Brinton mentioned John Barclay was no longer involved with EM in Harrison County, so a replacement for him as an EM alternate would need to be identified. Hayley said she reached out to Wallace Patrick about replacing him since he hadn’t been involved with the committee for some

time. A motion was made by Lee Sawyer to move Blake Rudel from alternate EMS to primary, and Bruce Lundy seconded. Motion passed. Since Bryan Atkins retired and the new Andrew County Sheriff Grant Gillette agreed to serve, per a conversation with Ryan Bever and upon learning that potential committee member Kasey Keesaman declined to serve, a motion was made to move Rodney Herring, alternate sheriff, to the primary position and add Gillette as alternate by Blake Rudel, seconded by Bruce Lundy. The motion carried. Lastly, Bill Brinton moved to move John Barclay to EMS alternate, and Blake Rudel seconded. The motion passed unanimously. Remaining vacancies include alternate county commissioner and EM alternate.

**7. New / Other Business:**

- **Inventory Updates** – Hayley Howard said the Biennial Inventory is nearly complete and will be submitted by the January 31, 2021, due date.
- **THIRA SPR update** – Hayley Howard said she held two virtual THIRA SPR webinars and individually thanked those who attended. She inquired as to whether the RHSOC had a THIRA subcommittee in the past, and Bill Brinton said he had been involved with it in the past, but it was always subject to who was available to make the meetings. Hayley mentioned it would be helpful to have a designated committee with representatives from the different disciplines. Bill Brinton said he would ask John Barclay to chair a THIRA committee. Discussion tabled for a later date.

**8. Next Meeting:** The date for the next meeting is April 14, 2021, at 13:30.

**9. Adjourn:** Meeting was adjourned 14:18.

In FY 2021, there are three components of HSGP:

- 1) ***State Homeland Security Program (SHSP)***: SHSP assists state, local, tribal, and territorial efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.
- 2) ***Urban Area Security Initiative (UASI)***: UASI assists high-threat, high-density Urban Area efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.
- 3) ***Operation Stonegarden (OPSG)***: OPSG supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and federal, state, local, tribal, and territorial law enforcement agencies to improve overall border security. OPSG provides funding to support joint efforts to secure the United States' borders along routes of ingress/egress to and from international borders, to include travel corridors in states bordering Mexico and Canada, as well as states and territories with international water borders. State, local, tribal, and territorial (SLTT) law enforcement agencies utilize their inherent law enforcement authorities to support the border security mission and do not receive any additional authority as a result of participation in OPSG.

The [2018-2022 FEMA Strategic Plan](#) creates a shared vision for reducing the risks posed by terrorism and sets an ambitious, yet achievable, path forward to unify and further professionalize emergency management across the country. HSGP supports the goals of Building a Culture of Preparedness and Readyng the Nation for Catastrophic Disasters. We invite our stakeholders and partners to also adopt these priorities and join us in building a more prepared and resilient Nation, as preparedness is a shared responsibility and funding should support priorities that are most impactful and demonstrate the greatest return on investment.

For FY 2021, DHS is focused on the criticality of information sharing and collaboration to building a national culture of preparedness and protecting against terrorism and other emerging threats to our national security. DHS and its homeland security mission were born from the “failures among federal agencies and between the federal agencies and state and local authorities to share critical information related to the threat of terrorism” prior to the September 11, 2001, attacks.<sup>1</sup> The threat profile has changed in the past two decades – we now face continuous cyber threats by sophisticated actors, threats to soft targets and crowded places, threats from domestic violent extremists, and threats from new and emerging technologies. But information sharing and cooperation among state, local, and tribal authorities and federal agencies, including all DHS officials, is just as vital, and perhaps even more vital, today. Therefore, for FY 2021, we have identified five priority areas, tied to some of the most serious threats that DHS would like to see addressed by state and local

---

<sup>1</sup> Homeland Security Act of 2002: Report Together with Minority and Dissenting Views 222, Select Committee on Homeland Security: 107th Congress, U.S. House of Representatives (2002) (H. Rpt. 107-609).

governments, that recipients will need to address with their HSGP funds. Perhaps most importantly, we will be focused on forging partnerships to strengthen information sharing and collaboration in each of these priority areas and looking for recipients to remove barriers to communication and cooperation with DHS and other federal agencies.

**b. *Objective***

The objective of the FY 2021 HSGP is to fund state, local, tribal, and territorial efforts to prevent terrorism and prepare the Nation for threats and hazards that pose the greatest risk to the security of the United States.

**c. *Priorities***

Given the evolving threat landscape, it is incumbent upon DHS/FEMA to continuously evaluate the national risk profile and set priorities that help ensure appropriate allocation of scarce security dollars. In assessing the national risk profile for FY 2021, five priority areas attract the most concern. Due to the unique threats that the nation faces in 2021, DHS/FEMA has determined that these five priorities should be addressed by allocating specific percentages of SHSP and UASI funds to each of these five areas, for a total of 30 percent per award. The following are the five priority areas for FY 2021, along with the corresponding percentage of SHSP and UASI funds that each recipient will be required to designate to each priority area in order to obtain a full allocation of SHSP and UASI funds:

- 1) Enhancing cybersecurity – 7.5 percent
- 2) Enhancing the protection of soft targets/crowded places – 5 percent
- 3) Enhancing information and intelligence sharing and analysis, and cooperation with federal agencies, including DHS – 5 percent
- 4) Combating domestic violent extremism – 7.5 percent
- 5) Addressing emergent threats (e.g., transnational criminal organizations, unmanned aircraft systems [UASs], weapons of mass destruction [WMD], etc.) – 5 percent

Failure by a recipient to propose investments and projects that align with the five priority areas and spending requirements will result in a recipient having a portion of their SHSP and UASI funds (up to 30 percent) placed on hold until they provide projects that sufficiently align to the National Priority Areas, and total at least the minimum percentage identified above of total SHSP and UASI funds per National Priority Area.

A state or high-risk urban area must allocate the remaining 70 percent of their funding to gaps identified through their Threat and Hazard Identification and Risk Assessment (THIRA) and Stakeholder Preparedness Review (SPR) process.

Likewise, there are several enduring security needs that crosscut the homeland security enterprise to which recipients should consider allocating funding across core capability gaps and national priorities. The following are enduring needs that help recipients implement a comprehensive approach to securing communities:

- 1) Effective planning;
- 2) Training and awareness campaigns;

- 3) Equipment and capital projects; and
- 4) Exercises.

### SHSP and UASI Funding Priorities

The table below provides a breakdown of the FY 2021 SHSP and UASI priorities (the focus of OPSG remains unique to border security), showing the core capabilities enhanced and lifelines supported, as well as examples of eligible project types for each area. A detailed description of allowable investments for each project type is included in the [Preparedness Grants Manual](#). DHS/FEMA anticipates that in future years, national priorities will continue to be included and will be updated as the threats evolve and as capability gaps are closed. Applicants are strongly encouraged to begin planning to sustain existing capabilities through funding mechanisms other than DHS preparedness grants.

For FY 2021, each SHSP and UASI recipient is required to submit an Investment Justification (IJ) for *each* of the five National Priority Areas identified above. Each of these five investments must also account for at least the relevant minimum percentage of the applicant's SHSP and UASI allocation. The fusion center project must be included under the Information and Intelligence Sharing IJ. State Administrative Agencies (SAAs) may submit complete project-level information at the time of application, including the five National Priority Area IJs, but are not required to do so. As a reminder, all SHSP- and UASI-funded projects must have a demonstrated nexus to preventing, preparing for, protecting against, and responding to acts of terrorism. However, such projects may simultaneously support enhanced preparedness for disasters unrelated to acts of terrorism.

DHS/FEMA also requires SHSP and UASI recipients (states, territories, and high-risk urban areas) to complete a THIRA/SPR and prioritize grant funding to support closing capability gaps or sustaining capabilities that address national priorities and/or support enduring needs.
